Object : letter of recommendation

To whom it may concern

I, the undersigned Laurence Pasquereau, Professor of mathematics at the Université de Rennes and academic supervisor of the 3rd year Computer science Bachelor track MIAGE (COMPUTER METHODS APPLIED TO BUSINESS MANAGEMENT), confirmed I have Valentin BLIN as student this academic year 2024-2025.

Valentin is a serious and dedicated student who consistently delivers regular and effective work throughout the year. He is currently ranked 7th out of a cohort of 68 students after the first semester, with excellent results in all modules, which is truly remarkable.

He also has an excellent level of English, so I wholeheartedly recommend his application for a master's degree at EIT, where he will have every chance of success.

For all legal purposes,

Laurence Pasquereau
